Chief's Report

All of the chainsaws, k12, Honda generator and fans have been serviced. The k12 for 74 & 77 needs a part and should be back on the truck before the end of the week.

77 – Waiting for the parts to fix the air leak and the passenger side scene light. There is one pack missing off this truck. An inventory will be taken of the trucks to see if it is on another truck.

Chief Goldstein wanted to approach the subject of when 90 should be sent out because it has been questioned when it goes out. The Board and the chief agree that it would be the first truck out to any structural fire and could be the first truck out to a commercial call.

There was also an issue with a junior riding in the bucket. You need to pass Fire fighter 1 to ride 21 to operate and 25 to drive as per the SOG's

Radio and Alarm
